Preface

Nicholas Blundell's *Great Diurnal* ends abruptly on April 4 1728, some nine years before his death on April 21 1737 at the age of sixty-eight years. He gives no explanation why he ended it so suddenly. The hand-writing towards the end of the *Diurnal* seems to indicate that he was having more and more trouble with his sight, but further research, particularly on the Blundell Tenants Books for Little Crosby and Ditton¹ and his Disbursement Book², has led me to believe that the trouble with his eyes was only a contributory factor. The main reason was his growing concern about the descent of the estates.

His grandfather, William Blundell the Cavalier, his mentor in his boyhood and youth, must certainly have imbued Nicholas with a great interest in the history of the family, and with equal certainty drawn the attention of Nicholas to the fact that the descent of the family through the male side had been unbroken for centuries. Nicholas tells us that he himself went through the family muniments which go back to the twelfth century. With this pride in his ancestors and his family record, he must have been deeply grieved that he had no son to succeed him.³

It is clear from a study of all his manuscripts and letters that by 1727 Nicholas had realised he was to have no son and heir, and at once began to take steps to prepare for the future descent of the estates. It is this theme which runs through the greater part of the entries in the last years of his Diary. It was this obsession with the future which brought the Diary to a sudden end.

If he was to have no son, then it seemed prudent to get his daughters married, possibly to provide a grandson. The finding of suitable husbands for the daughters figures largely in the entries in this Volume and in numerous letters in his Letter Book. But the entries show that though his financial affairs were proving difficult, Nicholas placed his daughters' happiness in marriage before the wealth that might come from marriage into a wealthy family.

The future of the family estates was an important matter to Nicholas. He liked to have everything recorded neatly so that estate finance and organisation could be handled efficiently. His grandfather had compiled a Tenants Book in 1659.⁴ His father and he himself had continued to use it, but changes in the tenancies and the addition of scraps of information here and there had cluttered the pages with erasures and amendments. To neat, orderly Nicholas this was so distasteful that in 1728—note the date!—he began to make a new Tenants Book,⁵ which was destined to serve the family until 1810. Both books have survived, and so together summarise the story of the Blundell estates from the last days of the Interregnum to the Napoleonic Wars.

Nicholas used the long introduction to his new Tenants Book to instruct his heiresses and their future husbands in estate matters. He laid down what should happen to the estates at his death, and set out his wishes in the preface of a third Tenants Book, which he called the Tenants Book of Ditton⁶:—

"Ditton Demesne and Tenants in this Book"

I have Composed a Book which I call the Tenants Book giving an Account of all the Tenants I have, with som uesfull Remarks, both upon some of the Teneaments & upon som of the Tenants; but thinking 'tis very probable that my Ditton Estate may go to Frances my Younger Doughter & the rest of my Estate to Mary my Elder Doughter, I thought it proper to make a Book onely relating to my Ditton estate which may be of good service to whomsoever is Master of Ditton.

In the Begining of the New Tenants Book I have set down severall things by way of Instruction to my Heir, which I hope may be of good Service; for which Reason, provided Crosby and Ditton be Seperated, I shall Advise the Master of Ditton to peruse the Advice given to my Heir in the begining of that Book; which he may well do to Transcribe in this, or as much of it as may concerne him.

Demesney of Ditton called the Bank

As to my Demesney of Ditton called the Bank I have had som thoughts to make a Mapp of it which has made me more careless than otherways I would have ben in knowing the Contents and Valew of each Field; however will at present do it as well as I can, which shall hereafter be rectified by me where I find it amiss if I have an Oportunity to do so; so would not have my Heir too much to depend upon eather the Contents or Valuation of each Field."

Obviously, Nicholas gave precedence to the Tenants Book. He may have continued to make his daily notes on his papers and in his note-books, but since these have not survived, we do not know. The last entry in the Great Diurnal was April 4 1728. There is nothing final or retrospective about it: indeed it looks forward to the new season in the garden and the fields.

On May 26 1723, Nicholas and his wife began their journey to Flanders to bring home their two daughters, who since July 31 1717 had been left in convents there.⁷ The elder daughter, Mally, had at one time expressed a desire to remain at the convent, but then changed her mind and wanted to come home. However, when her parents arrived in Flanders she told them she wanted to be a nun. This annoyed her father, especially as it was now evident that she would probably succeed to the estates. He insisted on her returning home, but promised her that if after a period at home she still wished to become a nun, she could do so.

Within a year of the return of the two daughters, plans were being made for Mally's marriage, and one of the most fascinating features of this Volume are the entries between April 21 1724 and May 26 1726 concerning her courtship. These entries, the accompanying foot-notes and several letters quoted from the Letter Book of Nicholas throw an interesting light on courtship and marriage in the early eighteenth century. Several sons of gentry came to pay their respects, but it was not till February 3 1730 that she married John Coppinger, the son of Stephen Coppinger of Balyvalone and Barriscourt, County Cork, Ireland.

On July 3 1733, the younger daughter married Henry Peppard, the son of an Irish family then settled in Liverpool and engaged in the merchant trade.

Mally did not live long to enjoy her marriage, for she died on August 6 1734. Fanny became the sole heiress, and on the death of her father on April 21 1737, she inherited the Blundell of Crosby estates. Fanny and her husband became known as the Peppard-Blundells, but by a clause in the agreement made by Nicholas Blundell, the successor of Fanny and Henry Peppard who succeeded to the estates was to assume the name and the arms of the Blundell of Crosby.

For the last two years of his life, the Diarist had the joy and pleasure of entertaining and being entertained by his grandson, Christopher or "Kitt". The last entry in the Disbursement Book reads:—

"for little Master Kit . . . 14s. 0d."

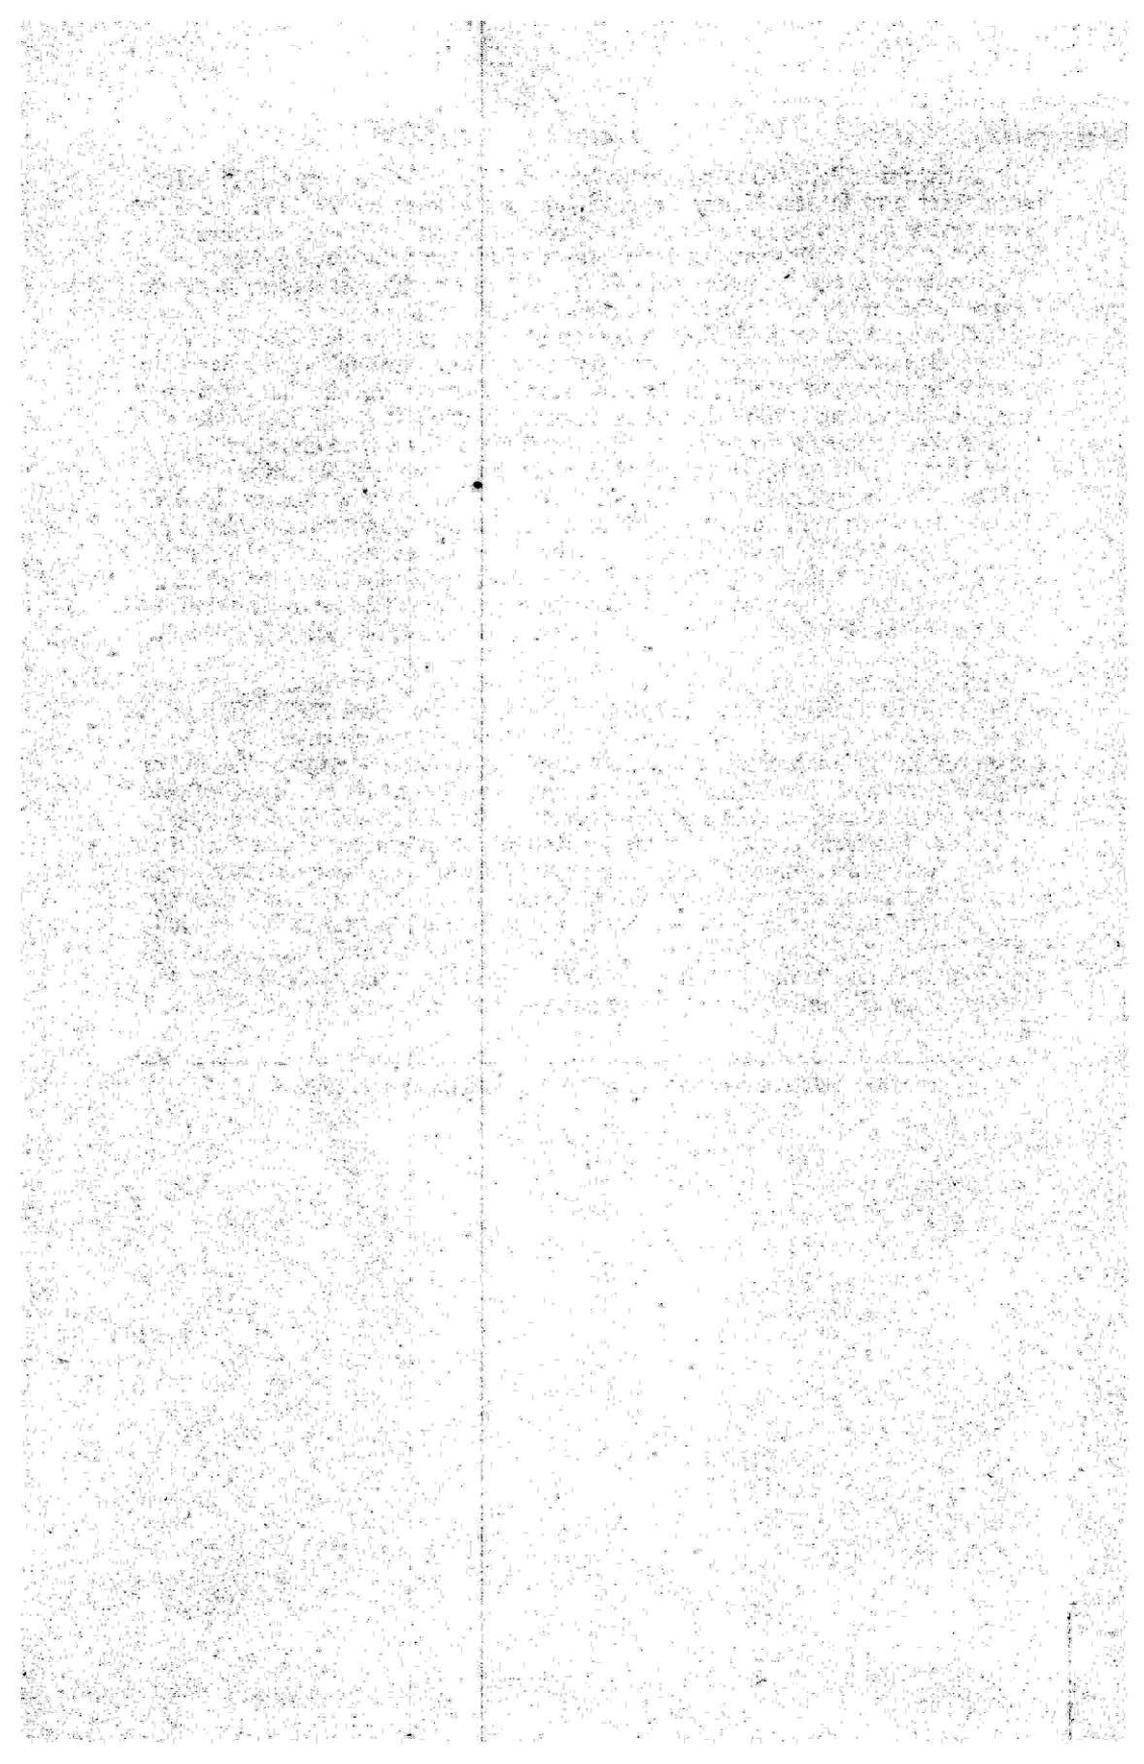

⁷ See Volume Two.

This Christopher Peppard was born on June 19 1735 and died May 6 1771 before his mother and father. Henry Peppard died on November 23 1771, aged 79 years and was then succeeded by his third son, Nicholas,⁸ who was born on October 9 1741. Following the instructions of his grandfather, he assumed in 1772 the name *Blundell* and the arms of Blundell of Crosby. His mother, Frances Peppard, the daughter of the Diarist, died April 17 1773.

It is strange that so meticulous a person as Nicholas Blundell should appear to have left no will at his death. None has been found although search has been made. This is even more difficult to understand when one recalls that on several occasions he mentions that at various times he had made a will. Especially did he take the trouble to do so before leaving for Flanders. (See October 21 and November 2 1715: on November 6 of that year he wrote—"I Signed my fourth and last Will.") Sometime after his return from Flanders he wrote, on April 13 1719,—“I writ my Will new over with some alterations”, and three weeks later, on May 5, we find him asking Mr. Case to be one of his executors. On December 1 1724 he signed a sixth will. In view of this failure to find a will, it is fortunate that an inventory of his possessions was made at the time of his death and this has been preserved amongst the Blundell of Crosby muniments. (See Appendix A.)

On several occasions in his Great Diurnall Nicholas refers to bringing home shilly (shilling, sheeling) from Sefton Corn Mill. (See January 1712). “Shilly” is the husk of oats, wheat, etc, and was scattered on the land to improve it. However, the word “Shilly”, especially in northern counties, where it is given as “shilla” or “shilloe”, can also mean small pebbly stones, shingle, gravel, or a mass of thin slate or small stones, or even a gravelly beach or shore. Mrs. M. W. Goulding of Silverdale, Lancashire, has very kindly drawn my attention to the fact that “shilloe” (often pronounced “shilly”) meaning “shale” was once obtained from the now disused quarry on Arnside Knott on the Silverdale Road. Until recently, Mrs Goulding tells me, there was a notice board bearing the words “It is strictly forbidden to remove any Shilloe from this site.” Thus when Nicholas Blundell mentions that he obtained “shilly” *from his delph*, it is very likely that he was taking a load of small stones to use in path-making in his garden. (See June 27 1712).

⁸ The second son, William, born September 29 1739, died on May 20 1740.

² The colt, for the first time, was being used to "draw" or "pull" a coach.

³ Margaret Davy, as one of the lives in a lease, already was a tenant of Nicholas Blundell. On February 1 1725, this passed, by a new lease, to her son, Thomas. This Thomas had at one time been guilty of killing rabbits in Blundell's warren, so a clause was inserted in the lease—"Must not destroy any of my Rabbets". Nicholas, when entering details of this lease in his "Tenants' Book", added

"There is a Strong Claws in this Lease to oblige Thomas Davy to pay £5 per annum to his Mother during her life at two equal payments viz: June the 24th & December the 25th."

Margaret Davy died January 5 1731.

This entry in the Disbursement Book recalls two other purchases he made at a book-shop or stationers just prior to this. The first is intriguing in view of his smuggling activities at later dates (see April 27; May 5 & 27, June 1, 4 and 8 1720):—
"Act against Runing goods 10d."

| "Livery Hat, Lace & Stockings | 9s. 9d. |
| Inside, out-side, &c: for a Livery Sute for William Carefoot | £3 6s. 10d." |

He remained as Coachman till December, 1727, when he left Blundell's service.

⁴ Rev. Richard Billinge, S. J., was then priest at Croxteth Hall. He died 1732/3, aged 58.

⁵ The local J.Ps. decided that "the last legal settlement" of Richard Webster was in Thornton, and that therefore the Thornton overseers were responsible for the maintenance of his wife and three children.

- 7 Charles Howerd and his two Men came to make me a Fustion Frock and William Carefoot a Livery Sute, Charles Howerd went hence betimes from his Work, being sent for upon Business. I began to lay Muck to the Roots of my old Apple-Trees as I had baired the Begining of Winter and to cover them up again. I planted the Beech Trees as Mr Saile sent me the last Week. Joseph Rigby came to introduce Philip Durell to be my Butler. Pat: Burton made a Viset here, he stayed Collation.
- 8 I took a Tryall of Philip Durell to be my Servant.¹ I sowed some Seeds of Annuell Gilliflowers in the Knot, but they came not up.
- 9 Mr Molineux of the Grange and Mr Sheperd dined here. Charles Howerd gave Pat Gillibrond, Mr Aldred and me a Bowl of Punsh here.

¹ Suitable stone was only obtainable from a limited number of quarries in this country. Nicholas Blundell obtained his from Whittle-le-Woods, near Chorley, Lancashire. Between 1660 and 1675 a new millstone cost £4 to £4 2s. 0d. In 1702, the price was £4, but by 1714 it had risen to £4 5s. 0d. When Nicholas bought the stone mentioned on June 1 1720, he grumbled at the price, and made a note about it in his Disbursement Book:—

“Mill-stone, (shold onely have ben — — —) £4 10s. 0d.”

In 1723 he again had to pay £4 10s. 0d., but perhaps he objected more strongly about this, for the next stone he bought was cheaper—£4 5s. 0d. in 1726. Alas, in 1731 he had to pay £5.

In 1769 his successor had to pay £7 for a new mill-stone, while in 1823 the price had increased substantially to £42!

We gain some idea of how long a mill-stone lasted when we note that he put a new mill-stone in his mill in 1702, 1705, 1707, 1710, 1711, 1715, 1720, 1721, 1724, 1726, and 1731.

Till the 13th generally faire & severall days more like Spring than Winter, from the 13th to the 28th some days Wind others Raine the four last days frost Snow & true Winterly Weather, more than we have had yet this Winter.

FEBRUARY

- 1 William Atherton came hither and payed me his Reck Rent, he brought a Present of a Mugg of Butter from his Wife. Ralf Hindley the Brick-layer and Daniell Chaddock the Mayson came to meet William Atherton here, we all went out to my Stone Delf on the Hill to see what sort of Stone it was, I discoursed Daniell Chadock about geting it, they all three Lodged here. I signed a Leas to Debera Mather & sent it her by William Atherton.
- 2 William Atherton &c: went hence. I Botled off the last of my Aqua Coelestis, I made at this time about nine Dozen & a half of Aqua Coelestis. Mrs Blundell intended to have come today to take leave of my Wife becaus she intends shortly for London, but business hindered her, so she sent her Doughters Mrs Margarit & Mrs Mary.
- 3 I Scoaped 30 Leomonds, the Juce of them made one Pint and about the fourth of a Pint, I put to it one pint of Brandy. I also made some Shrub; the proportion was Brandy two Quarts, Crab Vargious one pint & a half, Leomonds six, Dubble Refined Sugar one Pound. The proportion of Mixture for my last

¹ Parker was the new Smith, renting the smithy.

Brue of Aqua Coelestis was Brandy two Quarts, Crab Vargeus one Pint & one fifth of a Quart, Lime Juice one fifth of a Quart, Lisbon Sugar one Pound, Leomonds three and being the Brandy was very good I put to it four Quarts and one pint of Water, the Water was first bouled, the outward Rine of the Leomonds was infused in it so they were also in the Shrub, but the Brandy & Leomond Juice had not any Rine infused in it. Cozen Gelibrond of Astley Lodged here. This Night I had a Cargo of 16 Larg ones brought to Whit Hall.¹

4 William Carefoot² covered the Cargo very well with Straw. I marked out severall Placess in the Padock & Crow-orcherd where I intend to plant Ash and Oak.

5 Being Mrs Blundell began her Journey towards London today, her Doughters Mrs Margarit & Mrs Mary and Betty Blundell came to prayers to Mr Aldreds, they dined here so did Mr Sheperd, he also Lodg'd here.

6 Cozen Gelibrond and Mr Sheperd went hence. I removed the Loustrap from the New-Laine & set it in the West-Laine.³ Thomas Marrow and Partners paid me their Rent for the Ackers &c.; I agreed with them to hold it for a longer Terme. I Rid up the Great Leaning Popular as grew near the Hen-hous-Pit. I went to Great Crosby Court which was kept by Mr Greene, there was Parson Wairing, Mr Crisp, Thomas Syer, William Tarlton, &c.:

8 I met Jane Starkey at Leverpoole but being Mr Plumb was not in Town we went to his Hous but he not being at home we did not light, I went back to Leverpoole and payed Mr Allonson all I ought him, we drank together at the Woolpack.

9 I went with James Massy & Henry Swift & helped to measure some Ditching they had done for me towards the Cobby long since & then we stated Accounts. I bought a Side of a Hogg of Richard Ainsworth he helped to bring it hither and see it weighed. I payed him for it, we stated Accounts & made stright by paying what was due on both Sides. My Wife made a Viset to Mrs Parr.

10 Charles Howerd brought me a good provision for Aqua Coelestis, I shewed him his goods well stowed in Whit-Hall. I went to old John Sumners and proposed a Service at London to his Doughters but neather of them would accept of it. I began to lead away my Potatow Ground in the Oat-Croft & lay it on other parts of that Field where it wanted most.

11 I went to Leverpoole upon Jane Starkeys account, Mr Plumb got her a Warrant from Mr Mayor to seaz upon Thomas Taylor and his Wife⁴ I dined at the Wool-pack with Mr Booth, Mr Turnor, Mr Whittle, &c.:

12 Mrs Margarit & Mary Blundell came from Mr Aldreds and dined here. Cozen Gelibrond of Astley came from More-Hall & dined here. Mrs Parr and her Doughter dined here but we had dined ere they came.

¹ Once again he is engaged in smuggling: *Larg ones* meaning casks. The entry for February 10 1721 shows that White Hall was somewhere in or near Little Crosby.

² Hind and groom to Blundell

³ "Lous" is a dialect form of "loose". A "loustrap" may mean a trap which was portable.

⁴ Jane was a Blundell tenant. For some reason unknown, Taylor, a Little Crosby labourer, and his wife made a "forcible entry and detention of three closes of moss ground belonging to Jane Starkey". The case heard at the Easter sessions 1721 went against Taylor. See February 14, March 25, April 8, 20, 22, 24, 25, May 7 and July 6 1721.

- 13 Edmund Croston came & worked for me, 'tis the first time since he worked of himself.
- 14 My Teame and 12 others helped James Scarisbrick to remove out of this Town. Thomas Taylor and his Wife were taken by a Warand & brought before Mr Mayor of Leverpoole upon Jane Starkeys Account, Jane got the better of them. My Wife met Mrs Margarit & Mrs Mary Blundell at the Carr side.

- 19 Mrs Margarit & Mrs Mary Blundell dined here so did Ailes Tickley, Betty Blundell & Ginnet Jump.
- 20 I sold my Rabbet Skins to Richard Wignold he payed me for them and took them away. I removed the Candles out of my Seller, into the Candle Closet.
- 21 I Botled 28 Bottles of Shrub the Proportion of Mixture was the same as when I made Aqua Coelestis the 3rd Instant, onely now about one third of the Sugar was Dubble Refined & this Shrub had noe Water in but all Ingredients elce for Punsh. I stayed at Home, all the rest went abroad,² my Wife went to Ince.
- 22 Being William Blundell was ill I went to see him, coming back I stayed awhile at Ann Marsers the Widdows, I also called at Mr Aldreds and smoaked a Pipe with him and Thomas Howerd; Pat: Clifton came thither.
- 23 William Thelwall fixed a New Coffy-Mill in the Paistry but being it would not grind he took it down againe. I sowed some Peas on a sort of a Hot Bed.
- 24 I went to Leverpoole and drank at the Wool-pack with Mr Aldred, John Whit & John Marsden. Mr Aldred and I came home together.
- 25 I Removed the Dreser out of the Kitchen into the Bake-Hous and put the new Dreser into the Kitchen as was in the Dayry. I gave a Man some slips of Currons and Goosberrys for Mr Munson. Henry Curedon left my Service. Cozen Gelibrond of Astley sent me £100 by his Servant Robert as I had let him have and Interest for it. I Received a Box from my Sister Midleton with Chinae & Coffy in it.
- 26 My Wife made a Viset to Dorothy Blundell³ to condole the Death of her Son Henry.

¹ See June 7 1709 and May 24 1712.

² This is the expression Nicholas often used when people went out of Little Crosby visiting friends. Anywhere out of Little Crosby he frequently called "the outside".

³ Most likely the Dorothy Blundell who was nursemaid to the children in 1709.

- 27 I planted about 50 Ashes in the Padock and Crow-Orcherd 'tis the first day I have Planted Timber this Winter. I set Achhornes in the New Plantation in the Flat most of them were sprouted 3 or 4 Inshes. I raised the Firr-Tree in the Bleaching Yord as was almost blowed down and layed large Stones round it upon the Ground.
- 28 I Dined at Mr Shepperds in Darby with Mr Molineux of the Grange and Richard Blundell of the Carr-Side, we looked at the Hous & out-housing to see in how bad repair it was.

Truly Winterly Weather and generally pritty hard Frosts every Night, and cold persing Winds in the day.

MARCH

¹ See February 19 1703, February 4 and November 22 1704, and April 4 1706. Jane was a nun at Gravelines, Flanders. She was the sister in law of Edmund Trustram, of Ince Blundell. Her father, Nicholas Reynolds, left a considerable sum of which his two daughters, the wife of Edmund Trustram and Jane Reynolds, were each to receive between £400 and £500. In 1702, Nicholas wrote to Madame Cannell of the Poor Clare Nuns at Gravelines explaining that Trustram was not able to pay Jane Reynold's portion because he had been cheated and defrauded of a large part of the estate of the deceased Nicholas Reynolds.

However, nineteen years later, Nicholas discovered that it was not true that Edmund Trustram had been defrauded. The following is the second of two letters he wrote to Madame Bagnall on this matter:

“To Madam Bagnoll May the 20 [1721]

Madam

By yours of the 30th ulti: you inform me that your Friend gave you advice that Edmund Trustram had given Bond to make his Sister-in-Law Jane Renolds Portion equall to his Wives, which as you say your Friend tells you he has not done, so you desire my assistance herein; I have made the best enquiry I can into the Matter by asking every one as I thought likely to informe me. I find Edmund did give a Bond but

John Aspinwalls and looked at his Flowers, thence to Oughton where I Light of Parson Loxdale at the Claks. I smoaked a Pipe there.

6 I Payed Landers for Delving Fleas. Peggy Plat went hence. I dined at the Wool-pack at Leverpoole with Mr Whittle, Mr Booth &c: and then made a Bargan with Mr Turner for some Lime Stone and Glass-Bottles. I went with Ailes Atherton to Mr William Plumbe's Office, she gave him Directions to draw a New Lease. I went to look at Mr Willes his Flower Garden and at Mr James Tildesleys. I drank at Night with Mr Peters, Mr Williamson of Litherland &c: at the Wool-pack. Mr Aldred and I should have received some Money from Noctorum but were disapointed, he came home with me.

7 My Wife should have met Mrs Scarisbrick at Mrs Barkers but it being a very wet day she sent an Excuse to Scarisbrick. William Weedow went to Ormskerk to Jane Starkey who was Prisoner there upon Thomas Taylors Account, he came hither at Night & gave me an Account what was to be don for her. Mr Rigmaden came with him.

8 John Vose & Ned Spenser &c: began to contrive and Build a Stable & Shippon for Mr Aldred. I began to make a Bewfet in the Back Parlor¹ I dined at Charles Howerds with Mr Taylor the Mayor of Leverpoole, Mr Richard Norris, Mr Smith the Collector, Dr Diggans, &c:, Mr Corleys should have met us there to have discoursed about building a Bridg over Formoss-poole Gutter but he came not, Mr Peters was there so was Edward Litherland.

9 John Pye came hither, I went with him to the Delf by the Pinfold and discoursed him about geting Stones to sell for the Bridg over Formoss-poole Gutter. Richard Blundells Doughter Ailes Lodged here, she is to goe to Schoole to Betty Jackson so stayes here for some time. My Gray Mare Flea brought forth a Bay Filly Fole, I call it Ginny.

'tis not so fully expressed as I suppose your Friend heard it was, however, I am o opinion Edmund Received considerably more than what he owns to have done & consequently is oblidge both in Honour & Consience to give you more than what he has already done notwithstanding the Bond be Cansoled as he gave to Sir William Gerard. The Reason I have for it is this; that his Father-in-Law Nicholas Renolds dyed worth in Bonds & Notes upon Demand £1619. Goods Quick & dead £200. Teneaments of a Considerable Vallew had they ben sold as soon as Nicholas dyed, but being the Lives did not long continew they may modestly be Vallewed at £164 all which being put together makes £1983 out of which (tho Edmund says adeal was lost) I can not find that above £144 was lost so there Remains good £1839, half of which I am informed he Received and the half of what he Received ought to have ben payed by him to Sister Jane Renolds viz: £459.15s.0d., how much of it he has payed to your Hous I know not but hope he will pay all as is behind, for I do verely believe there was no more of Nicholas Renolds Money lost than what I mentioned before; perhaps ended some of the Money might be got by Sute & that charge ought to be allowed him so you see Madam I speak for him as well as against him and if what I have don herein can be any ways servisable to you (and Convince Edmund Trustram that he is bound both by Law & Consience to pay you the Remainder of what he owes you) I shall think my time well spent in making this Enquiry and shall ever Remain Madam
Your Faithfull Humble Servant
Nicholas Blundell."

Father John Hardisty, alias Tempest, S.J., came to Liverpool in the spring of 1713, succeeding Father Mannock as priest there. The need for a church was urgent and Father Hardisty decided to build one and a house for the priest. The house was built in Edmund Street which was owned by Sir Cleave Moore, and named after his wife, Ann Edmund. The street was then only a small path outside the town, leading from the Old Hall to the Mill in Pownall Square. The church was many years in building on a site across the road from the Old Hall at the South west corner of Edmund Street. It is quite possible that the acre of land which Nicholas Blundell bought for £18 on May 6 1715 from Sir Cleave Moore was intended as the site for the church. Building operations were delayed by the 1715 Rebellion. When they actually started is not known, but by 1727, it must have been nearly completed for Blundell records seeing 256 people receiving palms on Palm Sunday in the Church. Certainly it was completed by 1736, and thus from hearing Mass in Mr Brownbill's House, the Catholics of Liverpool could worship in what may have been the first Catholic church built in an English town since the Reformation.

The money used to build the church seems to have come from subscriptions like the one guinea which Blundell gave, but the following extract from a letter written in 1751 by Father Hardisty to Viscount Molyneux, S.J. suggests that Father Hardisty contributed in great part himself:—"From friends in other places I had part of the money I built with, but much the greater part was what I spared, living frugally and as not many would have been contented to live."

[See *Liverpool's Hidden Story*, R. J. Stonor.]

As a result of the 1745 Jacobite Rising, a mob burnt down this church on April 30 1746.

¹ From the tone of the letter it looks as if young Scarisbrick was either forsaking the Roman Catholic faith or at least abandoning his intention of becoming a priest.

“To Robert Scarisbrick, Esq^r Feb. the 11, 1722/3

Deare Cozen,

I was much surpris'd at the first News of your Sons Disobedience & carriage towards the best of Fathers, but most of all when I heard it publicly spoke of, but am willing to perswaid my self that things are not so bad as Represented 'quia Fama Mendax' According to the Proverbe, however thought it was my Duty as a Relation & well wisher of your Famoly, to condole with you for what has Happened which I am sensible must be an extraordinary Affliction to you, but should be glad to heare you had any Hopes of his Recantation; he seems to be a Man of so much Judgment & discesion that I doe not dispaire but (by your good Prayers & prudent Management) he will open his Eyes and be made sencible of his Folly & I hope to Eat of the Fatted Calf at the Return of the Prodigall Son for none can wish it more Heartily then doth

your Affectionate Kinsman and
Humble Servant

Nicholas Blundell

My Wife Joynes with me in her Hearty Sorrow for the Occation of your great Affliction & but for that we had intended to have waited of you yesterday but thought our Company would be troublesom.”

(Nicholas Blundell's 'Letter Book'.)

The will of Robert Scarisbrick, dated 1727, speaks of his eldest son, James, of whom there had been “no certain account for several years past”. The figures indicate the number of days spent in a single place or in crossing the Channel.

in one Figure some in an other very pritty & neat but not very costly. Fanny and I were at the Jesuits Church and saw there I suppose about 600 of their Scollars. After dinner I went with my Doughters and Pat: Daniell into the Park and saw the pritty place where the Water-works are, but they were not in order to play, however 'twas well worth seeing being nicely made with Shells &c: then I went with my Wife & Doughters to the Toore a le Mode or as some call it de la Rivour.¹

29 Pat: Daniell and we five came from Brussels to Gaunt in the Diligance; it being Market day at Allost I saw severall parcells of Butter weighed before it was to be carried into the Market as I think; they gave about one Penny for weighing twenty Pound & so proportionable & then each received a stamped Paper with the wight of their Butter & the day of the Month writ on it. In this days Journey I saw them dressing Flax, the way of Breaking it, is to lay it on a Barne Floore and beat it with a sort of a Hammer made of a Peece of Plank two Insh thick, The Swingle Stock had a slit to put the Flax into neare the top of it, the Swingle hand had both Back and Edge the same, so both were equally uesfull, the Handle was like the Handle of a chaifing dish & was fixed in the Middle of one End, they sat to their work and had a Leather Cushon for the Swingle hand to fall on to prevent the Edg from being dinged, when the Flax was tollerably well dressed, after this Swingling they scraiped it upon their knee with a sharp Iron somthing like the Scairper which Joyners somtimes ues.

30 It being a sort of a great day at the Daimes I was at their High Mass and at their Benediction. I went with Mr Gerni: to the Grand Begannage & saw severall Images of Religeous &c: in Wax work.

The three first days very hot, the five next unsetled Weather, then fair till the 19th and some of the days very hot, from the 19th almost every day raine and generally pritty much till the End of the Month.

JULY

1 Pat: Daniell, Fanny and I saw the moving Picture.² We gave the Nunns a Treat of Coffy and Tea and Mally gave them a Treat of Wine, they had a Recreasion day.

2 I Bought some extraordinary fine Lace for two Heads and Ruffles for my Doughters. I Bought some Roots of Anemonys & Tulops. Pat: Danniall, Fanny and I saw the Gunn which shoots a Bullet with Wind instead of Powder; when once well filled with Wind it will shoot off eight times as the Person told

¹ This was the Palace of the Dukes of Brabant. Within eight years of this visit the Palace was completely destroyed by fire. A plaque in the wall of the building opposite Lloyd's Bank, rue Royale, states that:—

"Here stood the Palace of the Duke of Brabant, built about 1200, destroyed by fire, 3 February, 1731."

The site was built over in 1790, but twelve metres beneath Lloyds Bank, there still remain well-preserved portions of the chapel walls and pillars built by Charles V. On one wall there is still some wall-paper or other decorative material. Between the stone blocks can still be seen the rye flour which was used instead of mortar. Also to be seen is quite a good length of the fifteenth-century six foot wide street, rue Isabelle, which once ran beside the Palace. It is in an excellent state of preservation.

² See December 30 1715 and foot-note.

me who shewed it, you may if you please each time charge it with a Ball; when I saw it, it onely shot off 4 times becaus it was not well fill'd with Wind, I shot it off the fourth time & not understanding it I lost more Wind than was necessary. I also saw the Brass Cannon shot off with Wind, it was not charged with a Ball but it would carry a Ball about four Inch Circumference.

3 Fanny went to Dance & saw the Miraculus Root in the Imitation of a Crusifix.¹ Pat: Daniell and I went to Mr Fodergalls the English Hatters, we also went into the Capesignes Garden. I went after Supper to Pat: Poyns² his Lodging & took a Bottle of Wine with him and Mr Girni.

4 I went with Pat: Daniell to Mr Hudsons, he shewed us his Hous and Gardens which are extreemly neat & pritty, there is one Bed which cost at the second Hand £100 and severall peeces of Tapestry each said to cost £100, The Parlor is plentyfully furnished with good Pictures which are vallenged at one Thousand Pound & one of them is valedwed at £400. I was at the Dominicans Church, it has but one Ile or Arch besides the side Alters, but that Ile is by my Pausing it over seaventeen yards wide at the least.

5 I and my Famoly came from Gaunt in the Barge to Brudges, we Lodged at Mrs Barentons neare Straw Bridge,³ Mr Fodergall came with us in the Barge.

6 Fanny went with me to Princenhuff⁴ where I saw Mr Scarisbricks two Doughters & two Doughters of Mrs Blundells.

7 It being a great day at the Carmes upon Account of the Scapular of our Lady we saw their Procestion goe past our Lodgings, we heard their High-Mass & their Salew. Pat: Horton went with me to the Barnerdine Monks, 'tis said the Compas of their Inclosure is as larg as the Town of Ostend, the Pryors Garden is very pritty having in it a bundance of tall Uew Trees very well trimmed, their Cloysters are very Large & neat and their Convent is very Large but their Church seems to be very small and meane.⁵

8 We five went into the the Augustin Nunns Convent which is most extreemly neat, larg and Convenient, most of the lower Pasages are Layed with Whit & Black Marble, the Pentioners Appartment is remarkably neat and Convenient, the Convent is Larg and the Garden not small, We gave them a Glass of Wine. We tooke leave of Mrs Markham, Pat: Horton, Mrs Carroll and the rest with whom we are ues'd to dine & Sup at the Augustines.

9 We left Brudges & came in a Coach to the Barge in which we came to Newport and there hir'd a Caraba to Dunkerk, the Poore Claires having a breach my Doughters lay in the Convent, my Wife and I lay in the out Quarters.

10 I went to get a place in the Caraba for Fanny in Order to send her to Gravling but could get none. My Wife lay in the Convent.

¹ See July 31 1716.

² Father Poyntz, S.J., for a short while, in 1706, chaplain to Nicholas.

³ Strobrug (Pont de la Paille), which connects the street Spinolarei with Sint-Annarei, still exists, as probably does Mrs Barenton's house.

⁴ See September 12 1716.

⁵ Carmolite convent demolished at the French Revolution.

- 11 Fanny went with me to the Bason or Dock, I paised it over and it was 301 yards Long and 122 yards wide at the farthest End. Pat: Francis went with me to look at the New Key which they are maiking. Captain Smith was here I discoursed him about carrying over some Nunns Works.

- 14 I was at a Christoning in the Great Church, the Priest when he ues'd the Oyles diped a wyer in them and not his Finger, when the Child was Christoned the God-Mother lay'd it for some time upon one of the Alters.
- 15 Mr Bartlet was here in his way to Dunkerk. Pat: Manock was here in his way from Dunkerk to Callis.
- 16 Pat: Atwood, Mr Darnell &c: came hither. Mr Wingate brought Mrs Clifton hither to be a Quier Nunn.
- 17 Mr Darnell and his Famoly, Mrs Picket, Fanny and I &c: went in two Carriages from Gravling to Kindall where we met my Wife and Mally in Dunkerk Boat, we all went in it to St Omers, I and my Famoly Lodg'd at Chas Royall¹ a good & Cheap Inn, at Kindall I observed that when they burn'd a Brick Kill they set it on Fier when it was not many Courses from the Ground, & when those were hot then they put on 3 or 4 Courses more with Sleck between as usuall so let those 3 or 4 Courses be hot & then put more and in this Manner continew'd till all the Brick were pilled up in a very high Kill or Stack; The Brick Kill I saw thus order'd seem'd to be entirely cold at the Bottom the Midle part Glowing Hot and the top of it Raw Brick & still more to be put on, as it burned up higher.
- 18 At St Omers we saw Mr Bosiors Great Action Eustachius.
- 19 Pat: Rector shewed the Sodality Refectory &c: to my Wife, my Doughters and me &c.; I looked at the Mill belonging to the Collage, I think the Diamiter of the Cogg Wheele is eight yards and the Stone four Foot.
- 20 It being St Ignatius day we were at High-Mass & Vespers at the Collage. I treated Mr Darnell and his Son &c: at my Lodging with Burgundy Wine and Frute.
- 21 My Wife and I saw Fanny & Miss Picket Confirmed by the Bishop of St Omers in his own Chappell, we saw a great deale of the Bishops Kitchen Plait, his Crosior, some of his Rich Vestments and Miters. Being St. Ignatius day is Solemnised at Watton we went thither in a Pleasure Bote and came before the Solemnity was over, we dined there & then went in the saime Boat to Gravling.
- 22 It being the Feast of Porsiuacula I went to the Fryers to Benediction.

¹ In 1722 revived hopes for the Jacobite cause provoked the Atterbury Plot, so called because Bishop Atterbury of Rochester was one of the accused. To punish the plotters Walpole imposed an extra tax of £100,000 on the income of both Non-jurors and Roman Catholics (9 Geo I, cap. xviii). This tax was first imposed in 1722, and remained on the statute books until 1867, though long before that it had ceased to be imposed.

In the Registers and Accounts for Sefton Parish, there is a reference to this tax:—

| | |
|--|----------|
| “1723. Pd. for a Warr ^t from the Com ^{tes} to assess the Papist Tax by | 6d. |
| Pd. for attending the Com ^{es} of the Papist Tax att Aughton | 6d. |
| Spent att severall times aboute laying the Papist Tax | 3. 7½d. |
| Paid for a collecting warr ^t for the Papist Tax, and to Mr Byron [attorney] for his journey | 5s. 6d.” |

The Disbursement Book reveals how much Nicholas paid on this occasion for his double land tax and towards the £100,000 which he calls the ‘Grand Tax’:—

³ This was a method of a community showing disapproval of the behaviour of one of its members, especially in the case of a man tyrannising his wife, or a wife her husband. A cart was drawn through the village. In the cart were two men, one of them, dressed as a woman and holding in his hand a stick or long basting-ladle. At each place they stopped the 'woman' belaboured the man with the stick or ladle, and at the same time they shouted at one another. Sometimes a procession of men and boys, blowing horns, followed the cart, and the occasion frequently developed into a riotous display.

January unsettled Weather & Cold but not much Frost. February extreamly wet. March seasonable for the time. Aprill very unsettled Weather. May hot and dry. June & July extreamly hot & though now and then some good Showers, yet in Pasture Ground the Grass was burned up. August & September still hot & want of Rain not withstanding there has ben severall good Showers. October though there has ben a good deal of Raine this Month, yet at the End of it the Ditches are as dry as usually in Summer. November & December generally pritty much raine, yet not sufficient to fill the Hors-pooles as full as commonly it is in Summer & there is very little or no Water in the Garden Ditches nor are the Pits & Ditches filled yet to their usual hight. This Summer has ben so dry that severall were forced to drive their Cattle to Water where they could find it. The Hay was made almost as soon as Mow'd and the Corne Ripe before it was well fed so that there was a poore Crop of every sort of Graine except Wheat. Potatows very few & generally bad. Apples were ripe before their time, which I suppose was the Caus they would not keep as well as usuall. The Summer was very unhealthful upon the Sea Cost in Lancashire but not Mortall. The Winter like a Spring & in some places Apples &c: fairly knit. There were great Stormes of Wind both in Summer & Winter.

¹ Henry succeeded to the Ince estates on the death of his father in 1773. He distinguished himself as a philanthropist and connoisseur, and was the man who gathered together the well-known collection of Ince-Blundell marble statuary. He was the last of the Blundells of Ince Blundell, the estates passing because of a bitter quarrel with his son, Charles, to the Welds of Lulworth. Thomas Weld assumed the name Blundell, and became Thomas Weld-Blundell of Ince.

² Dr. Samuel Angier—a fashionable physician living in Union Street, Liverpool. His visiting list included the names of nearly all the important families in Liverpool.

During the last quarter of 1724, the only payments for doctors and medicine are:—

| | |
|------------------------------|----------|
| "Geting Eye bright | 2s. 6d. |
| Blooding Fanny | 1s. 0d." |

However, in the first quarter 1725, there are large payments for doctors' bills which probably included the fees of Drs Lancaster, Angiers, and Apothecary Livesley:—

| | £ | s. | d. |
|--|---|----|----|
| "Phisick for the Poore | | 1 | 7 |
| Phisick for me | 1 | 1 | 0 |
| Phisick for my Wife & Mally | | 10 | 1 |
| Doctor Phees for me | 5 | 5 | 0 |
| Dr Phees for my Wife & Mally | 1 | 11 | 6" |

- 24 John Tickle, &c: told me they were lick to be troubled for non Appearance at Farnworth Court.¹

¹ The trouble concerned jury service, Blundell wrote this letter on behalf of his tenants:
"To Mr Dod under-Stuard of Farnworth

Sir

Octob: the 23d. 1725

Some of my Tenants have Acquainted me that six of them were summons'd to appear at Farnworth for Jury-Men the last Court, none of them denighs their obligation to appeare there, but would have it as formerly viz: to goe as usuall by Neighbour Row & not any to goe twice together or at least twice in three yeares which makes them think they have ben ill ues'd, especially if they be Fined for Non Appearance being Willing not onely to send one or two out of the Town but also to give a gratuety to the Bayly for what Civility he can shew them in that Affaire, wherefore I beg you will regulate that Matter as far as you can without Infringing upon your own Priviladges by wch you will Oblige

Your Humble Servant

Nicholas Blundell."

(Nicholas Blundell's Letter Book, p. 122.)

¹ During his time as lord of the manor, Nicholas had to put in a new mill shaft on three occasions: November, 1709; December, 1710; and on this occasion, November, 1725. On each occasion a newly cut down tree was used; one he bought and two came from trees growing on his own demesne. Generally an oak tree about one hundred years old was used as oak at that age was considered to be at its best. The best time for cutting down the tree was October, and, except in an emergency, the tree was prepared the previous spring by stripping the bark. By doing this the sap was practically dried out of the tree when it was cut down in October. See November 17 and 26 1725.

- 4 I Began in good earnest to get up my Potatows with 8 Hands.

30 I had five Hands & sometimes more Pilling Leomonds most part of this after-noone & squeeing them, from 80 Leomonds I had 3 quarts and one Gill of Juce to which I put 6 Quarts & two Gills of Brandy. I infues'd the outward Pill of five Score Leomonds about 3 Hours in six quarts of Brandy.

31 Mally not being well Doctor Lancaster came to see her, he Bluddyed her under the Tong. Crosby Smith brought Buck home, he has had him some time in cuar.

The three first days Heasy & Foggy & not the least breath of Wind, then till the 17th unsetled Weather, the 17th & 18th very fine faire days, the four next days unsetled, the 23rd some sleet & very Cold, the five next days faire, the three last very agreeable Showers for now we begin to wish for Raine.

Tis a Saying that by Observing ten dayes before the Spring Equinoctiall & ten days after which way the Wind is viz: the twenty first days of this Month, one may give a great Gues whether the Summer following will be wet or drye; for as the Wind was those days, so it is generally the Yeare after; if the Wind be in that Quarter which brings raine, the Summer following will be wett, if in a dry Quarter then the following Summer will be faire. The twenty first days the Wind was generally Northerley or N:W: which Is supposed to be a dry Quarter in these parts, so we may expect a Faire Summer, for the Wind was not above twice Southerly. The Prognostication has proved true for the following Summer has proved faire.

APRILL

1 We Began to make some Wine of 60 Sivell Oringes & 30 Leomons, they cost 06s-08d, four dozen Pound of Lisbon Sugar cost £01-04s-00d, it made six dozen Bottles which comes to 05s-01¼d per dozen.

¹ This is a rather intriguing entry. Always when speaking of his wife he wrote—'My Wife'. Rarely does he refer to her as 'She' and only when there is some coolness or disagreement between them. His monthly weather report does not suggest the journey was prevented by bad weather. And since journeys to Holywell were usually undertaken as pilgrimages, or for religious reasons or for purposes of healing, it must have been for some very good reason that Mr Blundell, if it was Mr Blundell, did not agree with his wife's idea of going to Holywell. There may have been another reason, one of vital importance to him. He still was anxious to have a son and heir. It is possible therefore, that there may have been some belief that she was pregnant. Possibly that was why she wanted to go to Holywell, and why Mr Blundell, aware of the hazards of such a journey, did not want her to go. Later, when her sister, Mrs Middleton, was visiting Crosby Hall, she went with her sister to Holywell on July 21.

Much dammage don in many parts of England this year by Thunder & Lightening. Corne generally speaking proved small.¹ Never so sickley a time known in Lancashire as from May till the End of this Year, abundance died but generally those above 50 years old, the Distemper was an uncommon sort of a Fever which eather took them off or ended in a violent Ague which often lasted severall Months & was scarce possible to be cuer'd and most who had these fits had them after different Mannors so that they scarce knew when to expect them, being somtimes Quartan, Tersion &c: and som had an easy Fitt and as soon as that was gon off had a most violent Fitt; in som other parts of England they fair'd not much better and beyond the Seas it was a very sickley time. When the Distemper began to abait the Horses in severall places were ill, being seas'd with a runing at the Nose & a Cough of which som Few died. Vast Quantitys of Hearings were taiken this Winter upon this Coast and at Formby &c:.

¹ "Anno Domini 1728 and 1729 Corn was very scarce in Lancashire, as well as in other parts of England. For which reason great quantitys of Corne was brought into Leverpoole and I am informed from very good Hands that from June the 24 1728 to May the 6th 1729 there was import into Leverpoole 234562 Bushels of Corne, chiefly Wheat and Barly."

² Father John Hardesty, S.J., son of Thomas Tempest, of Broughton Hall, Yorkshire was the Catholic priest serving Liverpool.

³ In the Harkirk Burial Register, Nicholas wrote:—

"122. Mr Robert Aldred was born at London; he was a Priest of the Society of Jesus; he came to live with me August the 6th A.D. 1707, and continued with me for som years, then lived as my Priest at Edward Howerds in Little Crosby till the West lain Hous was built for him, where he dyed Febr. the 23rd, A.D. 1727-8, and was buried in the Harkirk on the 25; he was a Laborious good Missioner, a Fasatious pleasant Man, and very well beloved by Protestants as well as Catholicks; he lyes next to Mr Lovell on this nearer side of him."

In the wall of the small Memorial Chapel built in 1889 on the site of the Harkirk Burial Ground, three gravestones have been preserved, one of which is from the grave of Father Aldred.

29 I set the three farthest Beds of the Nursery in the Vistow with Seedling Goosberry Trees; they had ben pricked out once before, and were raised from Seeds of severall Sorts of Goos-Berrys which were sowed August the 19, 1724, the 3 next Beds to them were set with Cutings & Slips of Goosberry Trees which had ben pricked out before and taiken good Rooting. Thomas Cooper came to let me know when he would bring som Burch Water. I hir'd Thomas Whit to be my Gardinor till Michalmas.

Till the 8th very faire, from then to the End of the Month very unsettled Weather, but generally pritty much Raine though now and then a fayre day or two.

MARCH

1 I helped Launderers to measure the Timber he had sawed for me, I pay'd him for it. Thomas made a Hot-Bed to Rais Cowcombers in, but not to grow in; I shewed James Massy how to make Baskets to sow Cowcomber Seed in, for the first Seedling Hot-Bed.

18 I set one Bed in the Vistow with two Rows of fine Suckers of Abell & one Row up the midle of the same Bed with Suckers of Abell cut off close to the Ground.

19 Mr Moss brought me som Leases which he had drawn; we perused Robert Weedows and mended it where it was rong. Cozen Butler sent an Express to let me know when Mr Chisleton would be at Chester.

20 Robert Weedow pay'd me part of his Fathers Debt. Crofts pay'd me for two Larg Oxen. Pat: Smith lodged here. I tunned some Burch Wine, there was 55 Gallons of Water cost 19s; Five Score Pound of Lisbon Sugar £2-14s-2d; Fifty Pound of Rasons £0-17s-8d; The Juce of 36 Leomonds £0-04s-6d; the Leomond Juce was not one Pint & half I made it, into Sirop & put it into a nine Gallon Kask but there was so little of it, it gave it no relish, when 'twas Tunned it did not with all the Ingredients make above 37 Gallons.

21 Pat: Smith and I staited Accounts, he pay'd me a good Sume of Money; I went with him to the West-Laine-Hous and gave him Account of what I had charge off, belonging to Mr Aldred, he gave me orders how to dispose of them & gave me som things.

¹ A doctor.

² This was probably Father Thomas Lockhart or Lockhard who was born in Hertfordshire in May 1672. He entered the Society of Jesus in 1693. He was a missioner for some time at Cheame in Surrey, and then at Culcheth Hall in Lancashire. He died at Bryn, near Wigan, Lancashire, on 2 March, 1744. His appointment at Little Crosby was only a temporary one. Towards the end of 1728 Father James Clifton, S.J., a nephew of Father William Clifton, S.J. of the Formby mission, was appointed to Little Crosby. He stayed until his death, September 27 1750.

- 22 Mally and I dined at the Bank of Ditton, then went over by Runkhorne Bote, so thorrow Rock-Savage Park to the Whit Hart on Frodsom Bridg, where Cozen Butler met us & went with us to the Golden Talbot in Chester¹ where we Lodged.

APPENDIX B APRILL 4 1720

DISPUTE CONCERNING PAYMENT OF WAPENTAKE RENT

In the 1660s William Blundell the Cavalier, questioned the payment of a Wapentake Rent of 2s. 8d., for land he held in the Manor of Great Crosby which was then in the hands of the king. In 1660 he copied a list of the rents of tenants of his in Great Crosby into the manuscript, the *Great Hodge Podge*, page 63:—

“WAPENTACK RENT, 1660

“Thomas Cawsey Brought me the following note extracted (but not verbatim), from Mr Thomas Bootles rent tally for Great Crosby.

In 1661, during a visit to London, he took the opportunity of examining the official Rolls of Wapentake Rents and copied the entry which concerned Great Crosby. The Richard Blundell mentioned was lord of the manor of Little Crosby, 1553-1591. On returning to Little Crosby, William Blundell entered the following note into the *Great Hodge Podge*, page 64:—

"Anno 1661 I repayred to an Office in furnevalls Inne wher one Mr Palgrave was Deputy Receyver and he shewed me great Rolle of records of Rent consisting of 30 or 40 presses and in the last presse (or sheets) but 5 or 6 I read these words, wch I think I have coppied out truly, notwithstanding many words are abreviated—(towards the topp) *Balliatry wappentayes de west Derbyshire*. (Then lower)—*Et de totale xxvii^{vi} reddit Ric^d Molyneux milatie Richard Blundell & alys pro tentmoaty jurs in magna Crosby per annum at per computationem de 24 Regis: Hen: Cⁿ solendra Est termino predicto.*

Now if y^a do compute all the small summs before written they do amount just to the rent here mentioned of 27s. 6d so yt the rent of 2s. 8d. wch Mr Bootle requireth of me is over and above all this."

William Blundell must have appealed successfully against paying the 2s. 8d., for in 1670 he added the following note:—

"The 2s 8d. above said is not now (1670) demanded: for I cleared it, sondry yeares agoe, by an order from the Exchequer."

It was on these entries in the *Great Hodge Podge*, that Nicholas was basing his objection to paying the 2s. 8d. which Lord Barramore claimed on April 4 1720. Nicholas realised, however, that unattested copies, as these entries were, of the Rolls were not enough, and probably would not be accepted as evidence. He therefore decided to employ an attorney, John Culcheth, to obtain for him an official or attested copy of the entries in the Rolls concerning this particular rent. Here is the letter which he sent to Culcheth on April 10 1710:—

"To Mr John Culcheth

Apri: the 10 1720

Sr

My Lord Baramore sent to me the last Week to demand a Wappantag Rent for severall years past of 2s. 8d. p. Ann. By the Rows or Records in the Office for the Wappantag Rent I am charged (in the last Sheet as I take it but 5 or 6) with the yearly Sume of 16s. 06d. wch is constantly payed when demanded, but the 2s. 8d. which should be as I suppose part of the 16s. 06d. is now demanded over & above that Sume; wherefore my Grand Father made his Appeale & got an Order to stop the payment of the said 2s. 8d. which Order if I mistake not was dated Feb. the 23rd A.D. 1662. I find an Account of this Order but without Name or Seale to it, for I take it to be a Copy unattested wch can not Sufficiently empower me to withstand the payment of the said 2s. 8d. but I can not find the Originall. What I now begg of you is, that you'l please to goe to the Propper Office & see what I am there charged with & whether there was any Order granted to excuse the payment of the 2s. 08d. or what so ever you can find as will be of advantage to me wch I beg to have a Copy of Attested by some Officers of the said Court. I own that about 15 years since I paid this Rent of 02s. 08d. not then knowing any thing to the Contrary. I suppose I shall ere long be called upon for my Finnal Answer (for at present I have waived it) so beg you will assist me herein as speedily as conveniently as can & what charge so ever you shall be at, shall together []r own Fees most thankfully be repayed by

Sr

[Your] Affectionate K[insm]an
[and] Humble Servant
Nicholas Blundell."

The Diary entries for December 21 1720 and for January 15 and 16 1721 show that Nicholas lost his case.

APPENDIX C APRIL 21 1721

THE SHORE ROAD AND BRIDGES BETWEEN LIVERPOOL AND THE FYLDE.

The present road from Liverpool to Preston, the Fylde, and the north runs inland through Maghull and Ormskirk. In the seventeenth and eighteenth centuries, and perhaps earlier, there was another road which ran from Liverpool along the shore at Bootle, Crosby, and Formby. That it was a road of some importance is obvious from a study of the documents relating to it and the bridges which carried it across the Farmosspool Gutter at Great Crosby and the River Alt. In these documents it is referred to as a "Highway from Liverpool to Poulton-le-Fylde" and a public way "betwixt the Market Towns of Liverpoole and Poulton-le-Fylde".

That it was a high-way is further evidenced by the following account taken from Nicholas Blundell's 'Anecdote Book'—

"Mr William Hollywell now of Leverpoole had one day 360 Cart Load of Coles carried from his Pits into the Fild, besides what were carried to other places and I am well assured that one counted 700 Cart Load of Coles or more that went all on one day over the same bridge & consequently towards the same part of the Country besides what went to other parts."

Yates's Map of Lancashire, 1786, shows the road clearly between Litherland, Great Crosby, Little Crosby, Hightown, across the Alt to the Formby road to the Ribble. On Greenwood's Map, 1818 the road is not shown, which suggests that it had been superseded by the present road. The 1846/7 Ordnance Map does show a path going from Hightown across the Morehouses Marsh towards Great Crosby, but to-day there is very little trace of the road.

This road was used extensively by the inhabitants of Little Crosby, Great Crosby, Formby and other townships to get to Liverpool or to the north. It was to be expected then that the users of the road would be concerned as to the state of the two bridges, the one over the Farmosspool Gutter and the other over the River Alt, and particularly as to who was to be responsible for the maintenance and repair of them or the building of new bridges.

In 1663 there was trouble over building a bridge over the River Alt, when the people of Formby wanted a bridge made, but the people of Altcar objected (QSP/243/46—L.R.O.). Again in 1673-4, there was a dispute over the same bridge. Up to this time Ince Blundell had been made responsible for the repair work, but now they were objecting and demanding that neighbouring townships should share the cost. One of the documents in this case (QSP/554/11—LRO) says that

"a certayne highway lying within the said towne [Ince Blundell] called Newfeild lane neare adjoyneing unto the river Alt and leadeing from a new erected bridge over the said river to the market towne of Liverpoole and other places, since the erectinge of which said bridge the said way is become a very great road, the charge of the repayinge whereof is become very great by reson that upon every great flood or Inundation of the said river all the earth or sande layd for the amendment thereof is still taken away by which meanes the same lane is from tyme to tyme reduced to as bad or worsor condition then before . . ."

In 1682 the whole of the parish of Sefton was made responsible for the repair of "the King's Highway within Ince Blundell within the Parish of Sephton called Nerfeild Lane neare adjoyning to the River Alt and leadeing from a new erected Bridge over the said river to the market Towne of Liverpoole and other places". (QS Roll 76—L.R.O.)

There was another bridge on this road, one that concerned Nicholas more closely. This was over Farmosspool, an open ditch draining the water away from Great Crosby Marsh to the sea. In bad weather this drain was a constant source of trouble to the neighbourhood, a cause of flooding on the road, and of damage to the bridge over the drain.

On December 21 1705 Nicholas discussed the making of a bridge over the Farmosspool, which suggests that formerly there may only have been a stone or wooden 'plat'. However, little or nothing seems to have been done about making a better bridge. At last an agreement was reached:—"An agreement for the opening of a new water-course from Formers Poole to the sea, owing to the flooding of the highway from Liverpoole to Poulton-le-Fylde, was made between Nicholas Blundell, esq, and 23 inhabitants of Great Crosby, with the consent of Viscount Molyneux, who was lord of the manor of Great Crosby at that time. 21st. April, 1712" (DDBI/46/30. L.R.O.)

On May 6 1712 Nicholas Blundell at the Ormskirk Quarter Sessions tried to get a Hundred Bridge over the Farmosspool but failed. However, on August 11 1712, Roby, the surveyor of bridges in the Hundred of West Derby, came to "Vew Formosspool Gutter where he considered about making a Bridge over it & took his dementions how it was to be maid." It would seem that a bridge was then made, although in his diary entry for April 21 1721, Nicholas still refers to it as a plat. On that date he went with the Mayor of Liverpool to look at this plat, which probably had been damaged in the severe inundation which took place in December

1720. A petition to Quarter Sessions was made (QSP/1175/6, 7, 26—L.R.O.) and since a few days later stones were being got from Little Crosby quarry for making a bridge over the Farmosspool Gutter, it looks as if the petition was successful. On August 5 1721 Nicholas was able to write in his Diary—"I was with the Work-Men as were Building the Bridg over Formosspool Gutter".

APPENDIX D JULY 17 1721

The particulars of this tenement in Little Crosby leased by Henry Watkinson are taken from two TENANTS BOOKS.

"WATKINSON, HENRIE:

In consideration of sixty pounds to be payed to me on the 24 of January next and fifty pounds more on the 29 of September following I do promiss to Lease unto Henry Watkinson of Thornton Husbandman all that Messuage and Tenement tn Little Crosby lately in the possession of Robert Moorcroft and his assignes for the term of 3 lives to be named by the said Henry on the 2d. of February next at which time I do promiss to put him in possession of the premisses, he the said Henry yealding and paying to me and to my heirs the yearly rent of sixteen shillings at the 4 usuall feast dayes and likewise doing 3 dayes boon with a team and 3 dayes reaping of corn yearly when call'd upon and paying six rent hens upon the 21 of December yearly. Henry is to uphold the yate¹ commonly called Harvyes yate and the ditch & cop adjoining which sa id cop and ditch divide the Lordships of Little Crosby and Thornton and likewise maintain a damming which has usually been maintained by the Tenant at the westerly corner of the demised premisses adjoining to the Great Moor hey. He is to grind all the corn which shall be used upon the premisses at the windy corn miln now standing in Little Crosby and to pay and do all manner of accustomed dutyes to the Kirk, King and Landlord which have formerly been payd and don for the same. Henry is to have one halfe of the crop of wheat which shall be sowed upon the Great hey and may have liberty at any time from this time forwards to repayr the houseing upon the said premisses. Witness hereof my hand this present 21 day of August 1699

W. Blundell.

This above is a copy of what was delivered to Henry Watkinson by my Master, and the said Henry Watkinson assented to the bargain and gave one shilling in earnest thereof in the presence of me Walter Thelwall [steward]."

There follows a note giving the dates and sums of money paid in connection with this lease:—

| | | |
|--------------------|------------|-----|
| January 2, 1699 | Henry paid | £60 |
| September 12, 1700 | paid | £40 |
| June 24, 1701 | — | £5 |
| September 29, 1701 | — | £5 |

Nicholas added the following, with additional notes made later tn 1729. Finally details of the tenement were written, and some notes added by successors of Nicholas.

"The three Lives Naimed are Henry, Ailes and Elizabeth Son & Daughter to Hen: Watkinson. Ailes died the midle of January 1728/9 & Henry the Lecy died many years since

The Hous and Out-Housing stands in Little Crosby & all the Tenement; it was formerly More-crofts, Henry Watkinson came a Stranger to it, he was Lessee & for putting in the Lives of Henry his Son, Alice & Eliz: his Daughters he gave Wm Blundell my Father £110 for a Fine. The Lease was dated Feb. the 2d, 1699, Rent 16sh. per Annum at the 4 usuall days. Three days with a team or instead of each 1s. 0d.. Three days Reaping or instead of each 4d.. Six Hens or instead of each 6d., must pay at each Fifteen 4d.. Must find a Foot Souldier Furnish'd with Arms (except a Pike) to serve in the Wars when order'd by me or my Heirs. He must mantain & keep in good order the Gate called Harveys Gate which is at the end of the Laine not far from his House & the Ditch & Copp at each end of the Gate wch said Ditch & Copp separates Thornton from Little Crosby as I take it. He must also uphold a Hed-Bolt which is between his Tenement & the Great-moor-hey & keep a good Hedge upon it. He must not let without my Licence.

I take this Tenement to be worth about £15 p. An.
Alice died in the Midle of Jan. 1728/9.

said upon this sodain Motion, for it is now known not only by all my Relations but all my Friends and Acquaintance from North to South that I have let her stay one year longer by her own desire for her improvement . . . others will say We formerly looked upon Mr Blundell as one whose word might be relied on, but what he means by this Jugling in saying and unsaying we cannot conceive; 'tis well if his daughter has carried herself as well as she ought to doe, that he sends for her home so sodainly, and perhaps when anyone treats with him for a Match with her he may also fly off and on in that affaire too . . . The only way to avoyd the reflections above mentioned is to let it pass (as I writ to Mally May the 22nd.) as if she stayed by her own desire, that will make all sids easy and redound to her credit, for she is much commended for desiring to stay one year longer which she had not done, but on Account of her letter which she says I interpreted rong but 'tis now too late to recall it. . . . She says how glad she would have been to have seen us this summer, she may assure herself it would have been no small satisfaction to us to have seen her, but as we have deprived ourselves of that comfort so long for her good it is her duty now to comply to us, both in obedience and for our credit as well as her own. I would not have her vales herself too much as being an heiris, for if eather of my daughters disoblige me it is in my power to clip their wings, not that I have the least thoughts to doe it and hope I never shall have the least Provocation for none can be more deare to me than my dearest children are, and when I have conveniency I shall not faile to settle them in the world to their satisfaction to the best of my power, but would not have them to think I will settle any of my estate on them as long as I live or at least of several years to come."

With the letter to Father Daniel Nicholas enclosed one for his daughter:—

"To Mally

My dearest dear child,

I am sorry I misunderstood your last letter though hope your stay one year longer will be an advantage to you.

Had we not considered your good more than our own satisfaction, which still we doe, we should never have suffered you to be out of our sight. You are not yet 18 years of aige so cannot think it too long to stay a few months more from this time, and in one month now you may improve more than you did in the first whole yeare. I hope you have still pensioners as will be companions for you, if not you must apply yourself more dilligently to your Improvement, or if it will be any satisfaction to you I shall let you goe eather to Graveling or Dunkerk or Brussels where you were formerly. . . . I would not my dearest child have you harbour too vain thoughts as being an heiris, for I can dispose of my estate as I see good, but none can be more deare to me than my dear children, and I assure you I have the same true love and affection for you as ever I had, and so has your loving Mother and doubt not but you'll still carry yourself so as to deserve it, which is the Hearty and dayly prayer of

Your ever loving and kind father
Nicholas Blundell".

APPENDIX H

SOME OF THE MANY LETTERS NICHOLAS BLUNDELL WROTE CONCERNING LIKELY SUITORS FOR HIS DAUGHTERS.

"Mr Busby May the 16, 1724

Sir

When I Received your Lines in my Brothers Letter, I was troubled with a Paine & weaknes in my Eyes otherways had Answered them sooner they are now I hope on the mending hand.

Your saying the Gentleman is Heire to a good Estate and will be a Barronet are not sufficient Motives to induce me to enter upon a Treaty of Marryage, those things I have already refused, I would also have him a Personable Man, one of sence and good parts and good Humoured those are the Qualifications to make a Woman happy, if you'll tell me who the Person is & where he lives I shall enquire after him & shall then give you an Answer according to the Caracture I heare. I am not entirely out of Hopes of having a Son, so shall not settle my Estate, onely Conditionally; but if I have a Son then so much Money certain at my Death besides som thing at Marriage. I hope the Gentleman has already somthing tn Posestion, elce an Equivolent for my Doughters Portion (tho it be sufficient for a Jounture) will but be a small thing for the young Cupple to live on. This I suppose is sufficient till I know more of the Gentleman you may please to direct to me at Crosby neare Leverpoole, Lancashire & twill come safe to

Your Humble Servant

Nicholas Blundell."

"To Mr Roydon Aprill the 6th. 1725

Sir

Am glad to find by yours of 11th Ult: my two got safe to hand and am beholding to my Friends for the good Caracture they are pleased to give my Doughters. I Beg Pardon for not Ansewering yours sooner, but hope this will reach you ere Mr Strickland coms home. I do not find my Daughter any more inclineable to Marry than she was, yet am entirely of Opinion she is not so averce to it but an Accomplished Gentleman wth whom she may be happy may obtaine her Favour, however I thoght it would be rude to let any one come to Court her and then for her to declair she would not Marry, that would look like an Imposition upon the Gentleman & he might really take it as an Affront put upon him, but if Mr Strickland or any other deserving Gentleman think it worth while to try if he can gain her Affections I am not against his coming but should

be glad first to know what Money is expected in hand for I assure you I can not give much, neather do I think much can be expected considering the Faire Prospect of some Hundreds per Annum after my Death. I perceive there has ben an other Gentleman proposed to my Daughter, but she Returned the same Answer, that she was not disposed as yet to Marry. I long since told her I would not compell her to Marry, much less to Marry one she could not Love & so to make her Miserable as long as she Lives, so leave her entirely to pleas herself, all I require is that he be a Gentleman of a Compotent Estate one of a good Caracture and a Catholick. I have never ceriously proposed Mariage to Frances my second Doughter, so can not tell how she stands Affected, but my Opinion is that Mr Strickland would not dislike eather her Person, Parts or Humour but self Prais is no Praise, so excuse me for giving a good Caracture of my own Dear Child, which would seem much better from an other Hand; tho she long ben ill, I hope she will in time Recover, for I can by noe Meanes say she is unhealthfull. As to myself I am God be praised very well, tho had a Relaps since my last to you. I did observe the Jounturs were a great Clog, but at same time was of Opinion that Probably one of them must soone Drop. As to Mr Stricklands Estate tho it is none of the greatest 'tis such as a Carefull Mannager may live Comfortably on, & to setle my Doughters to their own Comfort and Satisfaction is the Chief Aime of

your Humble Servant
Nicholas Blundell."

"To Mr Strickland May the 21th, 1725

Sir

Yours of the 3d. Instant I Received not till the 15th, for being some Distance from Leverpoole I have not my Letters always in due time, for I do not send to the Post constantly. I writ to Mr Roydon the 30th ultim: in Answer to your Directions to him from London wch he says he has received & has Acquainted you with the Contents thereof, so have little more to ad but to Confirme the saime; that all I am able to give at present is £1000 and at my Death an other £1000 if I have a Son, which I see not the least prospect of, and if no Son then instead of the second £1000 an Estate of £400 per Annum tho with some Charge upon it. If you are willing to treat upon these Termes, I shall be truly glad to see you at Crosby, but hop you'l let me know a Week or more before you designe me the Favour of a Viset. I am as desirous of an Alliance as you can be, and hope you may gaine my Doughters Affection, tho her Modesty at present will not allow her to say she has any thoughts to Marry, wch makes me the more desirous to leave her to please herself and hope she has so much discretion as to make a good choice. I can not say your Demand of £2000 is unreasonable were no more to be Expected, but I think the faire prospect of £400 per Annum will Sufficiently Ballance the Defisciency of £1000 in Hand; as to coming to Sizargh I take it to be needless, for I depend so much upon Mr Roydons Injenious Information & your own Worth and Honour that I question not the Truth of the Account given & should be glad to know your Answer, who am Sir

Your most Obedient Humble Servant
Nicholas Blundell."

"To Cozen Gillibrond Nov: the 26th 1725

Deare Cozen

By mine of the 24th you'd find how uneasy Mally was, and that she desir'd to have the Treaty brock off as I was told, however not having it from her own Mouth my Words in the same Letter were 'tis my Desire things should goe forward *but not entirely against the Grain*", thus far as to my last, since wch she has seriously imparted her Mind to me, & says she thinks she can not be happy with Mr Standish if he be of that Suspicious Gelous Humour as she takes him to be and if ever it be her Fate to Marry him as she hopes it never will, 'twill be entirely by your Perswasion & becaus she finds I desire it, but not in the least according to her own Desire or Inclination, If this really be her Thought (which I as well as yourself have but too much Reason to believe) 'tis full time to put a Stop to proceedings for you know 'twas always my Promis to her that I would not oblige her to Marry against her Will and 'tis much better to break off than to proceed and make not only the young Cupple unhappy but the whole Famoly with wch they were to live, so hope you'l Acquaint Mr Standish here with for I find 'twill be to noe purpose for the Young Gentle-Man to come againe 'tis but to entangle him more & more and I hope he may light of one who will have a greater Love for him than I feare my Doughter ever will & question not, but one with a much Greater Fortune, in the present at least wch I Heartly wish he may.

'Tis but Reason that Mally should be entirely left to her own Choyce, and if I be Reflected upon for not compelling her, I would rather be tax'd with that than give any Occasion of being esteemed a harsh or unkind Parent, but let the Matter be as it will I shall ever have a true Vallew for the Famoly I was in hopes to have ben Allied to & must always returne you my Sincere and Cordiall Thanks for the Paines you have taiken to bring Matters about wch I am well assur'd you would not have don, but that you thought it would have ben to my Daughters Content & Happiness. I think I have said enough upon this disagreeable Subject so must conclude with my Service to the Worthy Famoly of Standish and

"To Mr Strickland March the 12 1726

Sir

You have not wanted Friends to speak in your Behalf to my Daughter, tho in some Respect there is no Occasion for it, for I hope the former aversion she had to your Person is worne off, and as to your Estate I and all other Friends are well convinced 'tis what you say. After you went I thought it proper for some time not to urge her too much for I know she dos not love to be teas'd, however the other day I attacked her with all my Returnick & lay'd the Case pritty home to her & told her what the Effect would be, if she would not Marry; she spoke endeed nothing of you but what was very Handsom and becoming, but her Answer still was, she could not think of being Happy in a Married State & that I could not compell her to say the Words of Matrymony.

I Wish I could send you more agreeable news but being I could not I still defer'd answering yours of the 23d Ult., however you may be assur'd not onely of my Wives endeavours & mine but of severall good Friends to bring Matters about if possible, and I doe really believe (tho you seeme to feare the Conterary) that you have no Enemys at Work to lesson your Estate, Carracture, &c.; that would be mallice onely without prospect of Suckcess, for 'tis impossible to set Mr Standish Treaty on foot again, 'twill meet with more opposition than they are aware of.

My Wife received one from you wch she answered about a Week since, I think now and then a Letter to my Daughter would not be amiss and if I see the least hopes I shall give you the Trouble of a Viset; but without Business calls me, I care not to stir from home, however I returne your Thanks for your kind Invitation and do not dispaire of seeing Sizargh ere I die but should be glad of a good Occasion to draw me thither, which I would gladly hope time and patience may bring about, for that generall excuse 'I will not Marry' is not often very Lasting, however at present I can give no encouragement for another Viset and am truly sorry you spent so much Money the last time to so little purpose, but this I must tell you, you have universally got the good opinion of all who have seen you and where you had one Friend the first time, I think I may safely say you now have Forty but none more Firme than

To Mr Strickland June the 7th. 1726

Sir

I was truly Concern'd at oure last parting and have but too much reason to think I shall never see you againe at Crosby upon the like Occasion for my Daughter still continens in her Resolution not to Marry; However has nothing has been don on eather Side dishonourably, I hope we shall always meet Friends, and if it lyes in your way to make a Friendly viset at Crosby I shall make you truly welcom and question not but to find the same at Sizargh where I shall give you the trouble of a Viset whenever my Affaires calls me into your Parts.

My Daughter gave me some days since the Letters Sealed up which she received from you & I doe verely believe she never shewed them to any Body unless the two first wch I read and I really think they Contain'd a great deale of truth, tho I do not now

Remember one expression in them; I must beg your pardon for keeping them so long, I thought they would be too many to send per Post and was unwilling to send them by Tom Long the Carrier, but there is a Hors-race at Ormeschurch upon the 13th & 14th Instant where I think I shall be both the days and if any body ask me for any thing for you, I shall deliver them, but if I heare nothing from you ere the 20th Instant Ile send them by Post. Cozen Butler is yet here. My Daughter Frances is come home but little or no better, the Rest of your Friends and well wishers are well and much your Servants but none more than

Sir

your Sincere & Humble Servant
Nicholas Blundell."

Nothing further is said in the Diary about the courtship or marriage of Mally or Frances. However, two years after the last entry, Mally was once again the object of attention from a young man—John Coppinger. John was the son of Stephen Coppinger, of Balyvalone and Barriscourt, County Cork, Ireland. The Coppingers had suffered as Catholic recusants and by supporting the cause of James II, and had almost been brought to ruin. Stephen Coppinger followed the exiled king into France and there married Joan Goolde, the daughter of another Irish refugee, in 1700. On returning to Ireland Stephen Coppinger set about restoring the family fortunes, but the only hope lay in the marriage of John, the son and heir, to an heiress. For this purpose, John was sent in 1729 to James Barry, 4th Earl of Barrymore, a friend of the family, living at Rock Savage in Cheshire.

Lord Barrymore's second wife, Lady Elizabeth Savage, had inherited the Rock Savage estates from her father, Lord Rivers. On the death of his second wife, Lord Barrymore married Lady Anne Chichester, daughter of the 3rd. Earl of Chichester, and with her he lived at Rock Savage. Nicholas Blundell was well acquainted with Lord Barrymore and his second wife, Lady Savage and her father, Lord Rivers, and most probably through this friendship John Coppinger was introduced to the Blundell of Crosby family and thus met Mally.

Shortly after John arrived at Rock Savage he received a letter from his father telling him not to consider any young lady proposed to him there as he, the father, had heard of a young Irish girl of eleven years of age who had good financial prospects:—

"... There is Mr Harrold's daughter he engage if you stay two years longer she'll be about 13 years of age he'll give £6000 and if he dies without more children, as in all likelihood he will, the girl would be worth at least £20,000 in cash besides anything else. And you know father and grandfather and all the world covet nothing more... I only say all this that ye may be easy and not so impatient as to go headlong to work. The longer you stay unmarried the better your fortune will be. There is no greater noise in Cork than that my Lord got ye a fortune of £10,000. Several asked me whether I had any account of it. I gave them the ear and said my Lord may do with ye as he pleased..."¹

However, the letter arrived too late, for John Coppinger had already met Mally, the elder daughter and heiress of Nicholas Blundell and proceeded with his courtship.

Some attempt seems to have been made by a Father Richard Walmesley, a Benedictine monk, and son of an old Catholic friend of the Blundells of Crosby, to besmirch the character of John Coppinger. It is not known whether this was a deliberate effort to influence Nicholas and cause him to prevent the courtship of Mally going forward, but if it were then it failed completely, and Nicholas wrote to Father Naylor, the Superior of Father Walmesley, the following strongly-worded letter:—

"To Mr Nailor Superior of the Benedictons

January the 27, 1729/30

Sir

Tho I am an entire Stranger to you, yet I presume to make a Complaint of one of yours viz: Mr Richard Walmesley who has given his Tong more liberty than become one of his carature in villifying Mr Coppinger & reporting several things wch were entirely falce and Scandalous; I do not tax him with being the Author of them because I can not prove it; but I am apt to believe by his spitefull way of Expressing himself he was (if not the Author of them) at least one who devulged them upon all Occations; which tho true had not becom any good Christian to do, much less one of his Carrature; but what he has said against this Worthy Gentleman being altogether falce & Scandalous I do expect you'll command him not onely to beg Mr Coppingers Pardon under *his own Hand* writing but recall those Lyes & Storys in the severall Companys he reported them in, or elce make what he has said to appeare true; I said I expected he

¹ See W. A. Coppinger: *History of the Coppingers* (1884)

should begg Mr Coppingers Pardon under his *own Hand* writing, becaus I think he will scarce after what he has said against him, have the Impudence to shew his Face in my Hous; I confess I had once a Vallew for Mr Walmesley not onely upon Account of the Carracture he bears, but as being the Son of so Worthy a Man as Mr Walmesley who I am assured would scorn to endeavour to take away any persons Reputation tho of neavour so meane an Extraction much more Mr Coppingers whose Credit and good Caracture is at present most deare & valuable to him being he is now making his Address to my Eldest Doughter and notwithstanding Mr Walmesleys, Mallys (wch appears too plaine) I hope she will in a short time be more Happy in him, than she could have ben in any other yet propos'd to her; he being of an incomperable good Temper and an unblemished Caracture except what is maliciously reported by those who know him not and com of an Ansient & Worthy good Famoly and is not onely the Heir to a Plentiful Estate but has a kind & Generous Father, who has settled in present upon him, not onely what is extreamly handsom but even more than I could forshaima have desir'd which makes me the more to resent what is said against him, wch I take as a reflection upon me. You must give me leave to tell you that if a sufficient Recantation be not made, you must not wonder if Mr Walmesley be ues'd according to his Deserts. I do not look upon the Carracture of a Priest to be a [reason] for him to take away any Mans Reputation, I wish Mr Walmesley may shew good example by submitting himself to be in Falt, he then may hope for Pardon from Mr Coppinger and the Persons he has Scansalised by his Detracting Tongue & also from his Quondam Friend &

Well Wisher

Nicholas Blundell."

From Nicholas Blundell's Letter Book, p. 129

Stephen Coppinger agreed that his son should marry Mally and to match the sum of £400 per annum to be settled on Mally by her father, he made an allowance to his son of £500 per annum. The agreements setting out these terms were entrusted to Thomas Syer to take to Ireland and in the Disbursement Book we read:—

| | |
|---|-------------|
| "Syors Journey to & from Barriscort | £10.8s.0d. |
| Gratuety to Syer for his Care | £1.14s.0d." |

New dresses were bought:—

| My Weding Sute making it | 12 | 0 | 0" |

As was the custom, both at weddings and funerals, gloves were given to the servants and sometimes to tenants:—

| | |
|---|-------------|
| "Gloves given by me at my Doughters Coppingers Marriage besides what my Son & Doughter gave | £2 5s. 3d." |
|---|-------------|

Musicians had to be provided for the festivities, and, of course, Mary Seddon, the cook, had to be provided with additional help:—

| "Musick at my Doughters Weding | 15 | 0 | |
| James Withington for Cooking | 1 | 7 | 0 |
| Ailes Cross Cooking at the Weding | 7 | 6 | " |

On February 3 1730 Mally was married to John Coppinger. But alas the marriage was to be short-lived, for while on a visit to Crosby, Mally was taken ill. Doctor Worthington was sent for, but to no avail, and on August 6 1734 she died. In his Disbursement Book, Nicholas Blundell records the expenses entailed by this sad event, including the gifts to the Bishop and priest for Masses.

Two years after the death of Mally, John Coppinger married the daughter of Michael Moore of Drogheda, and it was the daughter, Mariana, of this marriage who succeeded to the Coppinger estates of Ballyvalone and Barriscourt, since Stephen, the only child of his marriage with Mally, died in 1745.

In the autumn of 1730 Fanny went to Ireland to visit her married sister. While she was there her father wrote to a Mr Fleetwood Butler concerning a Mr Webb who seemed to be a good proposition financially and might make Frances a good husband:—

“To Mr Fleetwood Butler October the 11, 1730

Mr Webb was in Lancashire very lately, I was once in his Company but he never in the least mention'd my Daughter, I wish he had; for he seems to be a very sober good temper'd Man, and I could have licked him very well; If I thought it were to any purpose, should be glad it were propos'd to him; I fancy if he had seen my Daughter, he would not have dislick'd her, onely not having a present Fortune would probably have ben a great Objection; However if he be in the Sercomstance as I heare he is & were really in Love with her that would be no great impediment; for I have reserved for her £100 of Land per Annum which I intend to leave her at my Death and have power to charge the other part of my Estate with £2000 besides what I might be able to leave her when I die; so that I think she may well be said to be worth better than £3000. But I have already said too much upon this Subject unless there were a better Prospect than I know of, however should be glad to know your Sentiment in this affaire, being willing as far as in me lyes to give what I am able to my Daughter to see her well Settled during my own Life.”

Nothing further is said about Mr Webb. The following year a Mr Merry became interested in Fanny and whatever prospects went along with her. He wrote to Blundell, but since Fanny refused to have anything to do with him, the following reply was sent by Mrs Blundell:—

“To Mr Merry from my Wife.¹ Aprill the 25, 1731.

Sir

I Receiv'd the Favour of yours. As to my Daughter coming over I know not when it will be, for Mr Blundell dos not go for her of some time & perhaps she may com before; he thinks his telling you that his Daughter could not think of Marrying you, was a Sufficient Reason for you to have no farther Thoughts of it, and she also told her Father that she had given you a Positive Denighall and desir'd you would settle your affections elce where, wch makes me surpris'd you should stay in England if you had any thoughts of going beyond the Seas. I do truly wish you may light of a more deserving Lady wch is the sincere Wish of

Sir

your most humble Servant to Command
Frances Blundell.”

The fortunes of Nicholas Blundell had now very much improved, largely due to his good management of the estate. Fanny shared in the greater enjoyments this led to. She received a yearly allowance of £16, and with the enlarged staff of servants, she was given her own maid, Ellen Chantrell, who was paid ten shillings per quarter. Early in 1732 she went with her father to Barriscourt to stay awhile with Mally and her husband. There they must have entertained and been entertained on a grand scale, for now, compared with former times, they were lavish in the gratuities given to servants:—

“Hereafter followeth the Expences of Fannys
Voyage & mine to Ireland & home againe.

| | £ | s. | d. |
|--|----|----|----|
| Travelling by Sea and Land & Som Vailes at Gentlemens Houses | 24 | 4 | 6 |
| Washing our Linnen | 2 | 11 | 9 |
| Vailes at Barriscourt by me Ni: Blundell | 3 | 13 | 0 |
| Ditto by my Daughter | 5 | 2 | 6" |

¹ This is the copy written by Nicholas Blundell in his 'Letter Book'. When Mrs Blundell wrote the letter her daughter, Frances, was still with the Coppingers in Ireland.

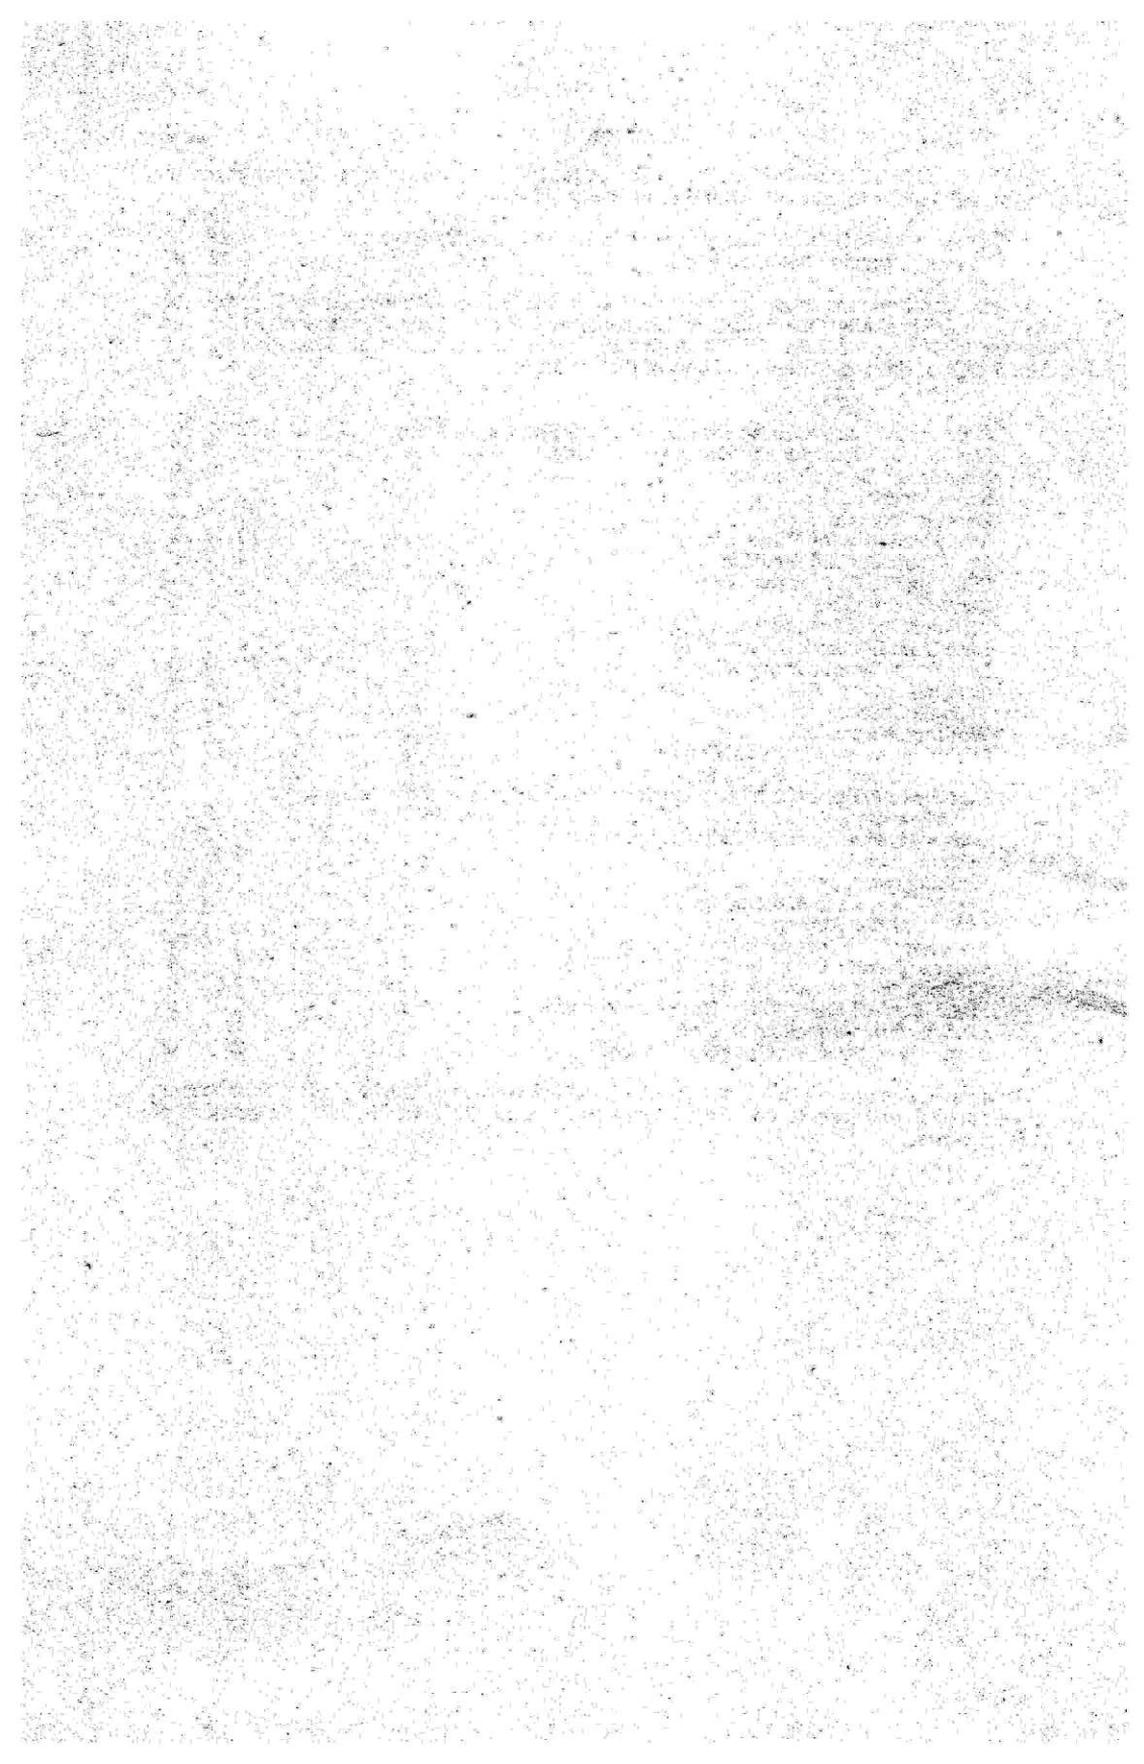

Fanny's health still troubled her, and this was probably the reason why she was taken to Buxton, most likely to take the air and drink the waters:—

| | £ | s. | d. |
|---|----|----|-----|
| "Going twice to Buxton & coming back in all the Travelling Expences | 7 | 18 | 2 |
| Fannys Expences at Buxton in all | 11 | 2 | 10" |

At long last, however, came the man who was to win her for his wife; Henry Peppard, the son of an Irish family then settled in Liverpool and engaged in the merchant trade. The wedding took place on July 31 1733. A few entries in the Disbursement Book give us only scant details of the preparations and cost of the wedding:—

For a while Fanny went to live with her husband in Liverpool. On Mally's death she became the sole heiress of Nicholas, and on his death on 21 April 1737, she inherited the Blundell of Crosby estates.
